

INFORMATION SHEET – ALL-TRACE® DRY COW

Presentation

A 101 g bolus containing the following trace elements and vitamins:

Nutritional Additives	Product Composition	Average daily supply over 120 days from 2 boluses
Copper (Cupric oxide)	57,295 mg/kg	96.9 mg
Cobalt (Cobalt carbonate)	2,367 mg/kg	4.0 mg
Iodine (Calcium iodate)	10,380 mg/kg	17.6 mg
Manganese (Manganous sulphate)	90,501 mg/kg	153.1 mg
Selenium (Sodium selenite)	1,379 mg/kg	2.3 mg
Zinc (Zinc oxide)	120,812 mg/kg	204.4 mg
Zinc (Zinc sulphate)	31,629 mg/kg	53.5 mg
Vitamin A	6,171,000 IU/kg	7,559 IU
Vitamin D ₃	1,234,200 IU/kg	1,512 IU
Vitamin E	15,901 IU/kg	19.5 IU

Uses

A dietetic complementary feed for the long-term supply of grazing cattle with trace elements and vitamins. **ALL-TRACE® DRY COW** boluses are designed for dry cows to provide them with that proportion of their dietary requirement of six trace elements and three vitamins not adequately supplied by a forage based diet. The bolus lies in the reticulum at the forward base of the rumen and slowly dissolves from a constant surface area, thus providing a continuous supply of trace elements and vitamins to the animal for approximately 4 months. The boluses dissolve completely leaving no residue in the reticulo/rumen.

Simultaneous supplementation of additives with a maximum content from other sources to those incorporated in a bolus, if applicable, shall be avoided.

Before using, it is recommended to have advice from a veterinarian or nutritionist concerning:

1. The balance of trace elements in the daily ration
2. The trace element status of the herd

Administration

Administer two boluses per animal.

ALL-TRACE® DRY COW boluses are suitable for all adult breeding cows over 400 kg liveweight: dairy cows at drying off, 8-10 weeks pre-calving in dairy heifers

Always use the recommended Agrimin cattle bolus applicator A. Both boluses can be applied in one single, simple application.

**WORLD LEADERS
IN BOLUS
TECHNOLOGY**

Contra-indications, Warnings etc

There is no need to administer additional copper, cobalt, selenium or iodine during the active life of **ALL-TRACE® DRY COW** (120 days)

MEAT AND MILK WITHHOLDING PERIOD – NIL

Pharmaceutical Precautions

Do not administer to cattle weighing less than 400 kg

Store in a cool, dry place

Reseal part used packs

Do not drop onto hard surfaces

Keep out of the reach of children

Legal Category

Dietetic complementary feed

Package Quantities

ALL-TRACE® DRY COW is packed in units of 20 (enough for 10 cattle)
